To: Hiring Manager,

Dear Sir/Ma'am

I am writing to express my interest in the role at your Company, as advertised on your Company Website. With a strong foundation in business administration, hands-on technical experience, and certifications in cybersecurity (ISC2 Certified in Cybersecurity and Google Cybersecurity Professional Certificate), I am eager to contribute my skills in risk management, system security, and incident response to your team.

During my internship at Midas Computers, I gained practical experience in diagnosing and resolving software and hardware issues, conducting routine system maintenance, and ensuring data privacy for customers. These experiences have equipped me with the technical expertise and problem-solving skills necessary to protect digital assets and mitigate cyber threats effectively.

In my role as a Marketing Intern at Pomat Cosmetics, I supported digital marketing campaigns while ensuring the secure handling of customer data and compliance with privacy policies. This experience allowed me to develop a keen eye for detail and a proactive approach to safeguarding sensitive information skills that are critical in the cybersecurity field.

I am particularly drawn to your company because of [specific reason related to the company, e.g., its innovative approach to cybersecurity, its commitment to data protection, or its reputation in the industry]. I am confident that my technical skills, certifications, and passion for cybersecurity align with your organization's goals and values.

I would welcome the opportunity to discuss how my background and skills can contribute to the success of your team. Thank you for considering my application. I look forward to the possibility of speaking with you further.

Sincerely,

Oyediran Mark Oladimeji
